Worldwide Easy View Date Request Form - SAGE

This document includes the following :
(1) SAGE ERP 1000 Extraction Method
(2) SAGE 50 Extraction Method

The reason for requesting voucher data

Worldwide Easy View is a service that visualizes voucher data received from companies using digital tools, identifies exceptional transactions through various scenarios, and provides insights related to the monthly (annual) business performance and voucher management of domestic and overseas local corporations.

Voucher data and related materials are used as core data for Easy View reporting tasks.

Regardless of the system and scale, including the analysis of more than 10 million vouchers, the following information is provided as a graphics-focused dashboard

- Monthly operation status
- Monthly voucher status
- Comparison analysis of the same period of the previous year
- Examples of abnormal voucher
- Key management indicators (ratios, turnover rates, turnover days, etc.
- Detailed analysis of assets/liabilities/income statement items

※ The following document assumes the voucher analysis period to be the following period:

> Cumulative for the current month [Jan 1, 2025 ~ most recent closing month] / Previous year [Jan 1, 2024 ~ Dec 31, 2024]

If you have any questions regarding data extraction, please feel free to contact us.

Easy View Service Team Email address : kr_easyview@pwc.com

List of Requested Data

The data items we are requesting for the report task are as follows.

No	Data	Data extraction reference date	Example	Essential (•)
1	**Accumulated vouchers from the beginning to the closing month** **(General Ledger : GL)** **(Journal Entry : JE)**	Accounting date within the following ranges : [Jan 1, 2025 ~the most recent settlement month] [Jan 1, 2024 to Dec 31, 2024]	Cumulative ledger entries from Jan 1, 2025 to Jun 30, 2025 Cumulative ledger entries from Jan 1, 2024 to Dec 31, 2024	•
2	**Accumulated Trial Balance from the beginning to the closing month**	Voucher data as of the end of the accounting period Trial balance including the beginning and ending balances extracted from the system.	Cumulative trial balance from Jan 1, 2025 to Jun 30, 2025 Cumulative trial balance from Jan 1, 2024 to Dec 31, 2024	•
3	**Balance Sheet(BS)** **Profit and Loss(PL)**	Voucher data as of the end of the accounting period	Cumulative BS/PL Jan 1, 2025 to Jun 30, 2025 Cumulative BS/PL from Jan 1, 2024 to Dec 31, 2024	•
4	**A Chart of Accounts**	Voucher data as of the extraction completion date	A CoA mapping table to check the level of every account	
5	**Work sheets** **(a package file)**	Voucher data as of the end of the accounting period or quarter/half/year-end	2025.01.01 ~ 2025.06.30 HQ/Subsidiary's work sheets (package))	

- Data from 1 to 3 are actually reflected in the company's report, and data from 4 to 5 can be requested additionally depending on the voucher.

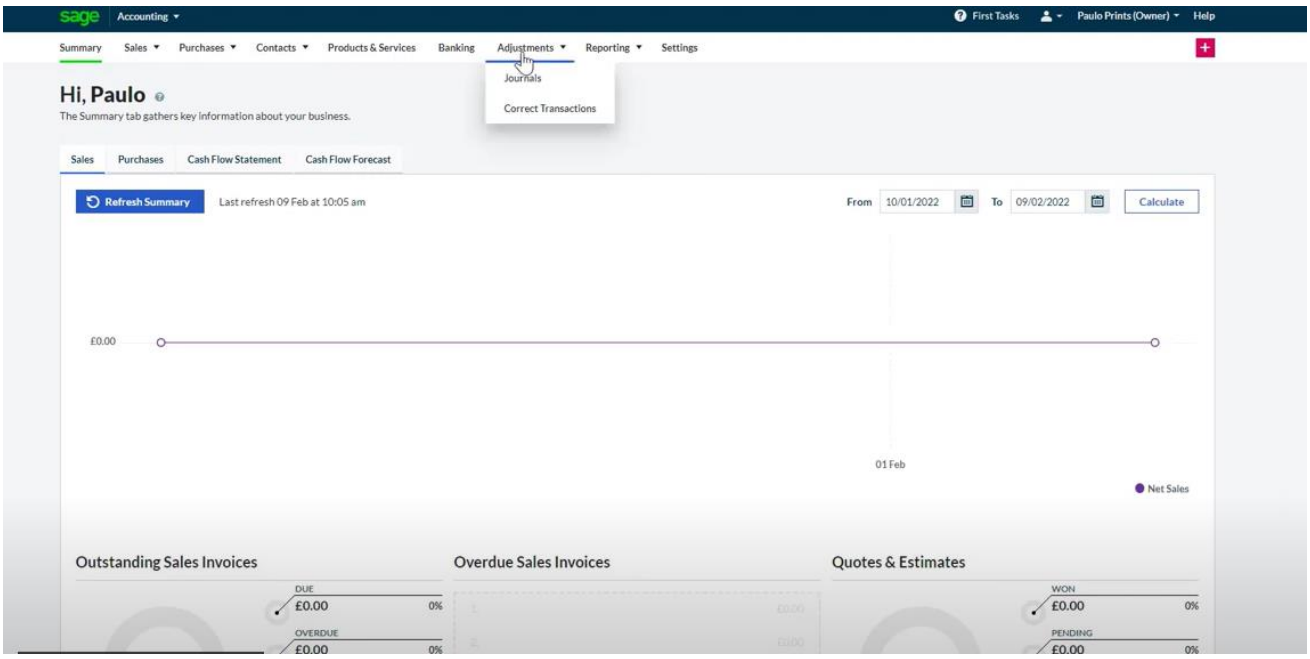
- **File Format**:
  - Voucher – MS Excel file, text (if the file with a large capacity), csv file etc (filename extension: .txt, .csv)
    For text files, set the field parameter (Delimiter, delimiter between data fields) to " | "
    (e.g., voucher number | voucher line number| account code)

  - Besides the Voucher(Trial Balance etc) – MS Excel file

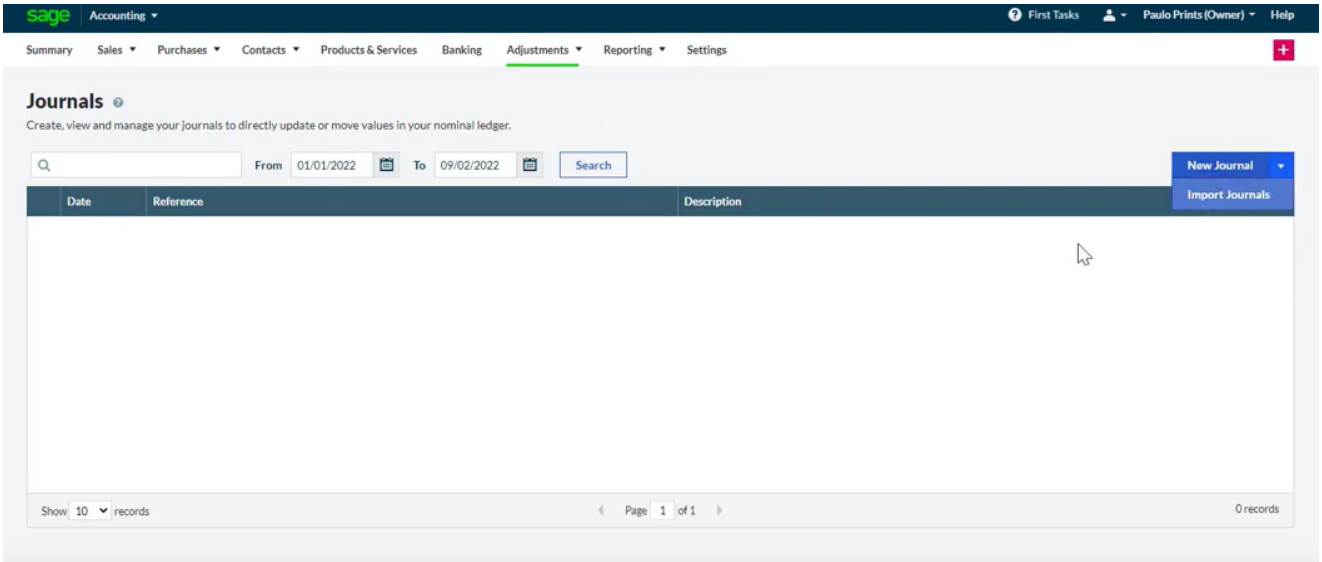
- The fields required to be extracted from the above data are as follows.

SAGE Manual- Journal Extraction

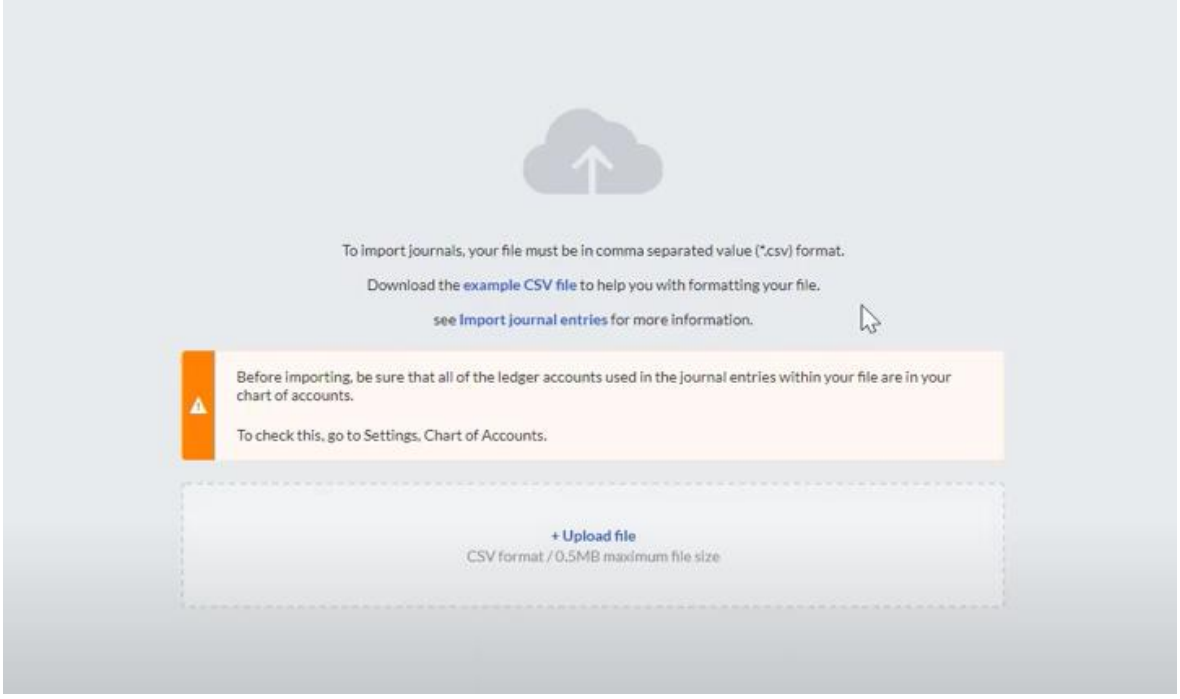
[Journal Extraction Method]



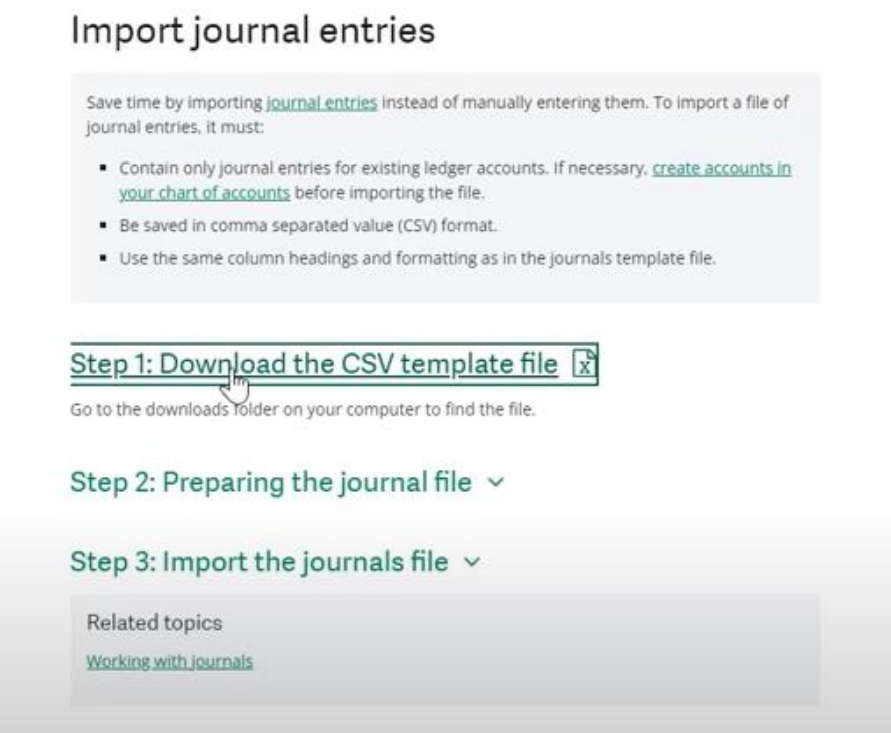
Click Adjustment, then select Journals from the dropdown menu.



In Now Journal, select Import Journals.



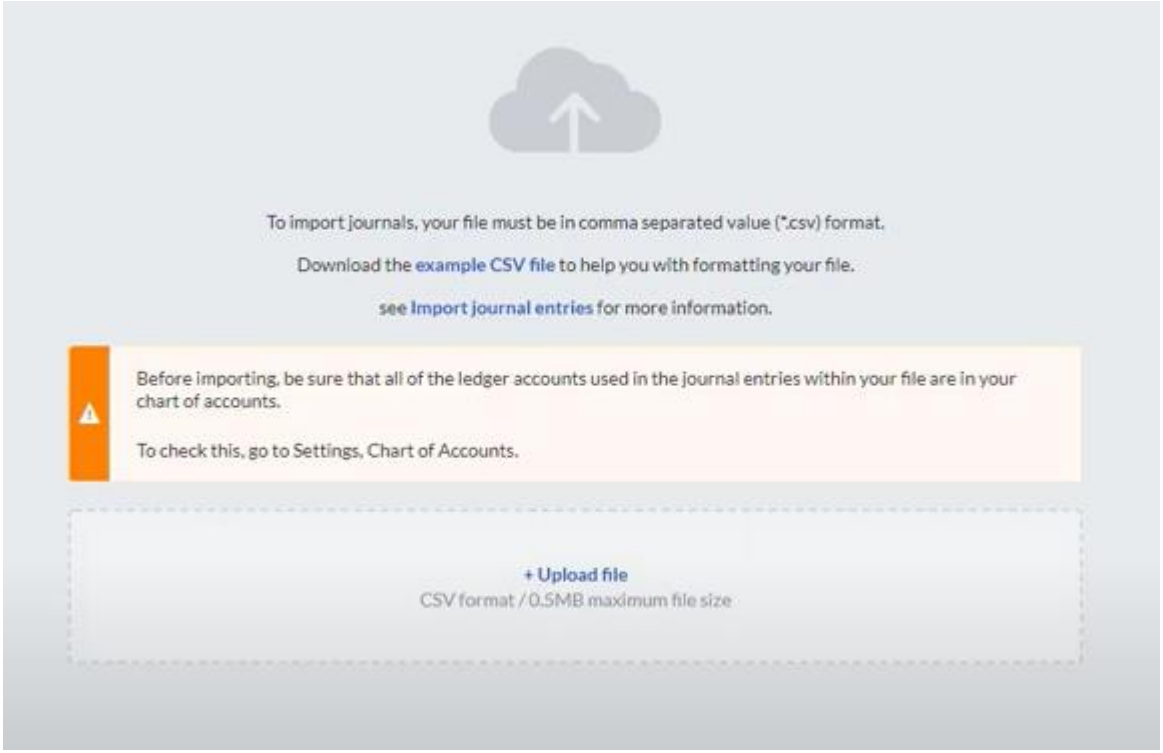
Click 'Download the example CSV file to help you with formatting your file' in the above window.



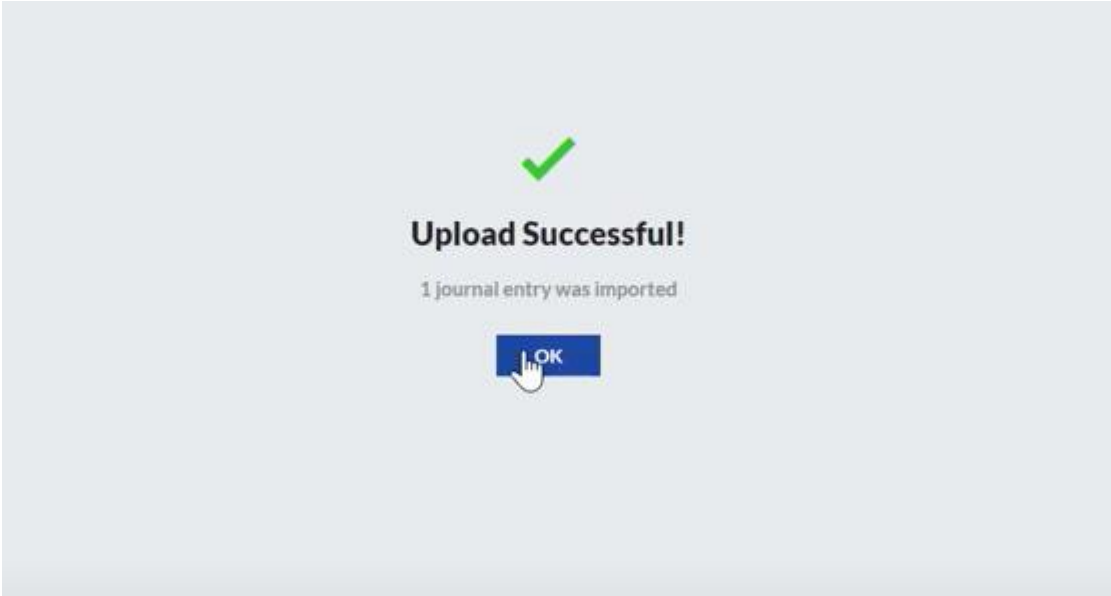
Download the CSV template file. (The CSV file can be opened in Microsoft Excel.)

- ➢ You can create a Journal import or enter details using the example template.

Before importing the Journal, you can create accounts in the chart of accounts if necessary.



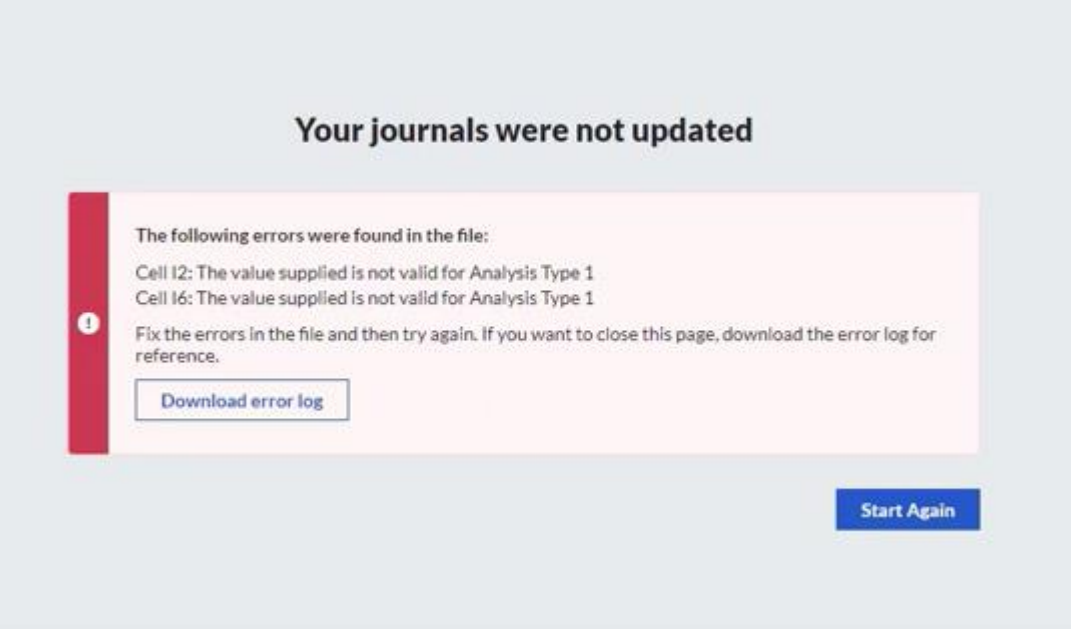
Save the file and then upload it.



Once uploaded, a message will appear confirming the successful upload. Click OK.

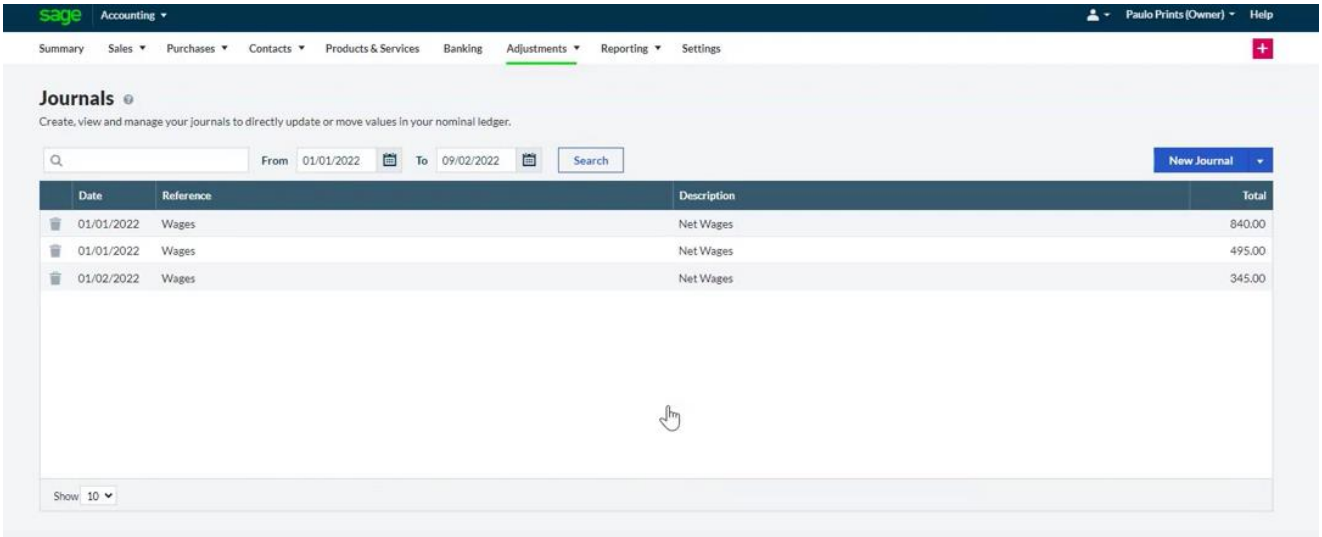
If an analysis type is required, you should check whether the type is set in the accounting system before importing the file.

If the setting is not configured, an error message like the one in the picture below will appear.



The error message provides information to help resolve the issue with the download.

- ➢ Click 'Download error log' to download the error logs.
- ➢ After downloading, click 'Start Again.



When you click 'Start Again,' you will be able to see the Journal import.

To view the Journal, simply click on the items.

SAGE Manual - Trial Balance Extraction

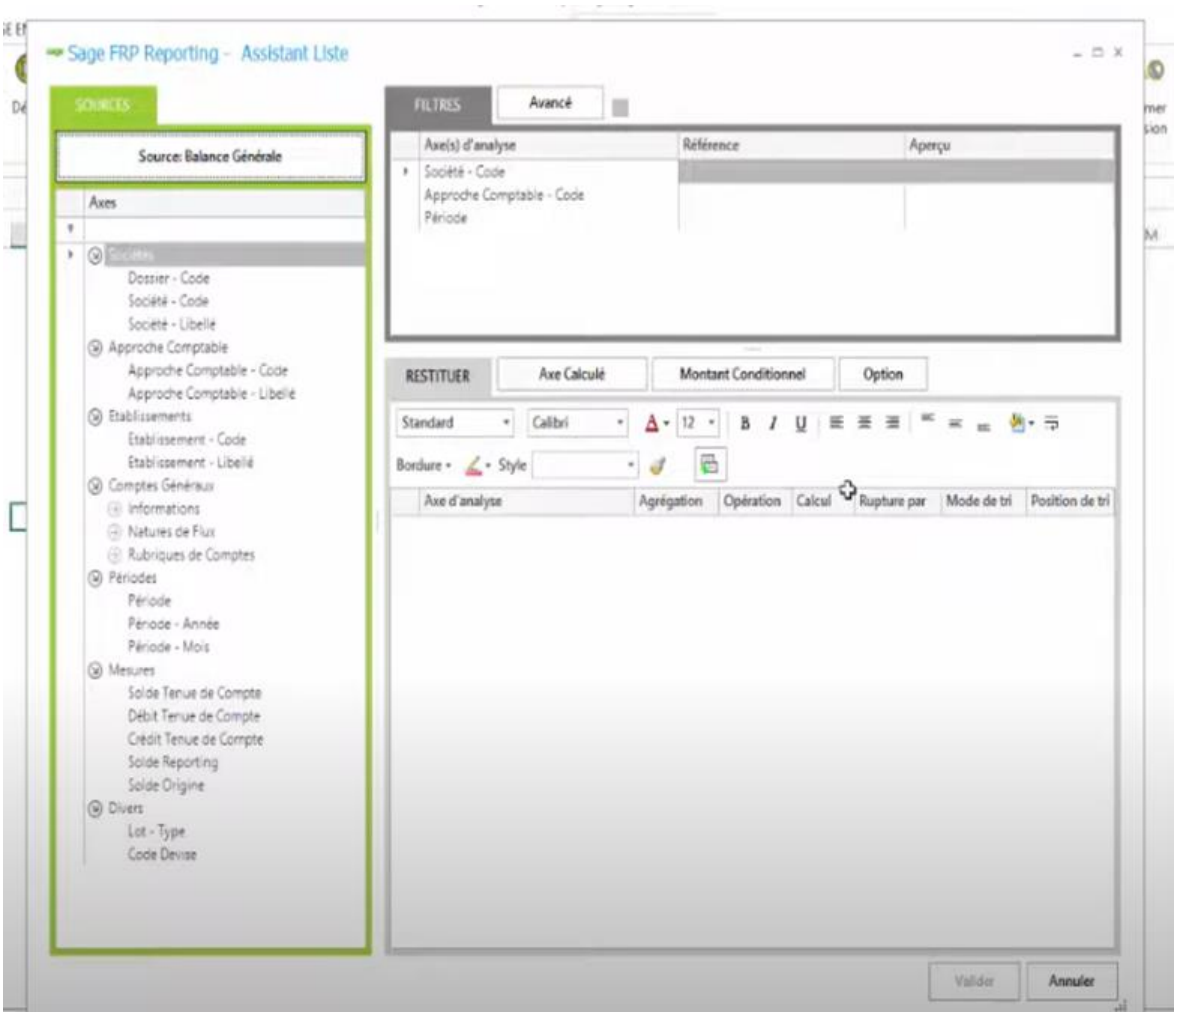
[SAGE ERP 1000 Extraction Method]

With SAGE ERP 1000, it is possible to create and implement reports within Excel, and the additional menu allows you to select data sources and design the status.

- **Basic operations**
  1. Access the SAGE ERP 1000 site.
  2. Click 'Rapport financier annuel' in the Reporting Financier section at the top.
  3. It confirms that SAGE ERP 1000 has been added to the Excel interface.
  4. Once user authentication is completed, SAGE ERP 1000 can be used.

- **Using the Assistant Liste**
  - ➢ You can access all items related to general balance.
  - ➢ You can create selection filters and restore items.

* Assistant Liste Screen



- After selecting the desired module, enter the appropriate code in FILTERS.
- (At this point, the year is added separately in SOURCES before entering it.)
- After retrieving the desired information within RESTITUER and running the inspection, the corresponding table will be generated.
- Even without adding a filter area in the Excel sheet, filters are automatically applied to the table.

The table created using the Assistant List.

Compte Général - Code	Compte Général - Libellé	Débit Tenue de Compte	Crédit Tenue de Compte	Solde Tenue de Compte

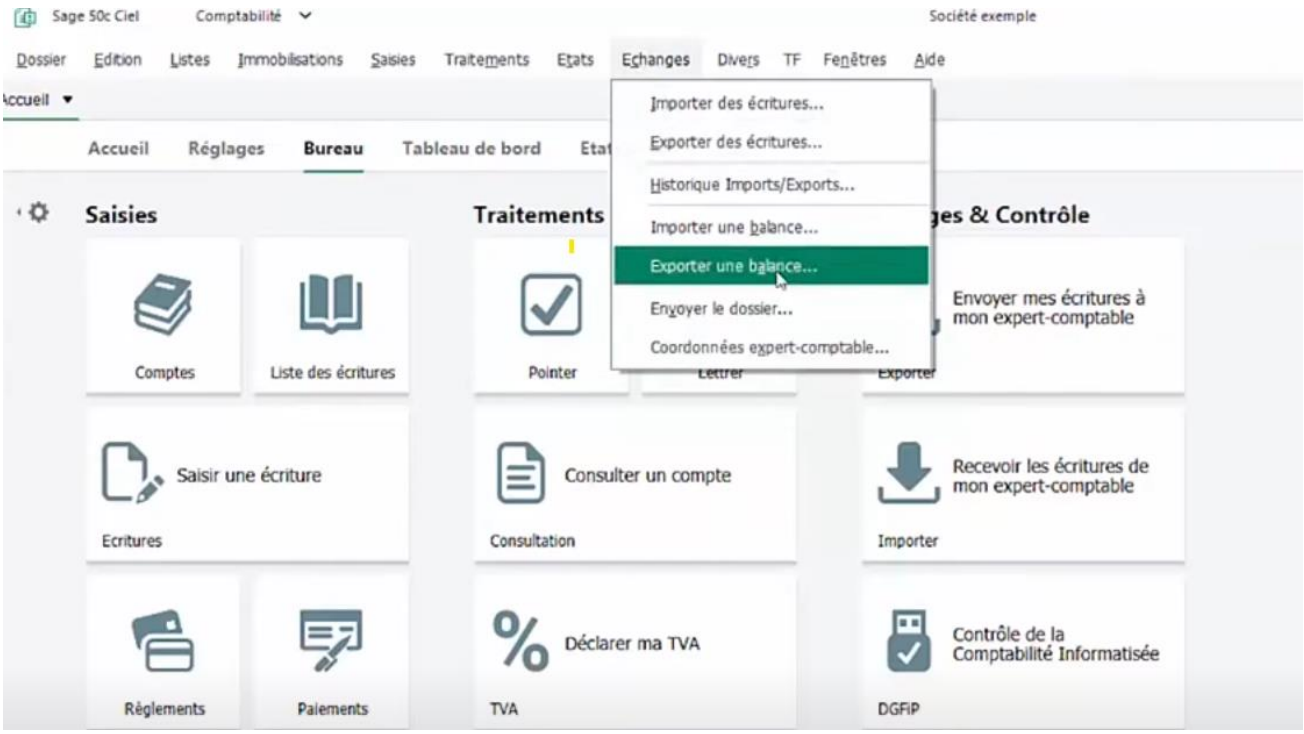
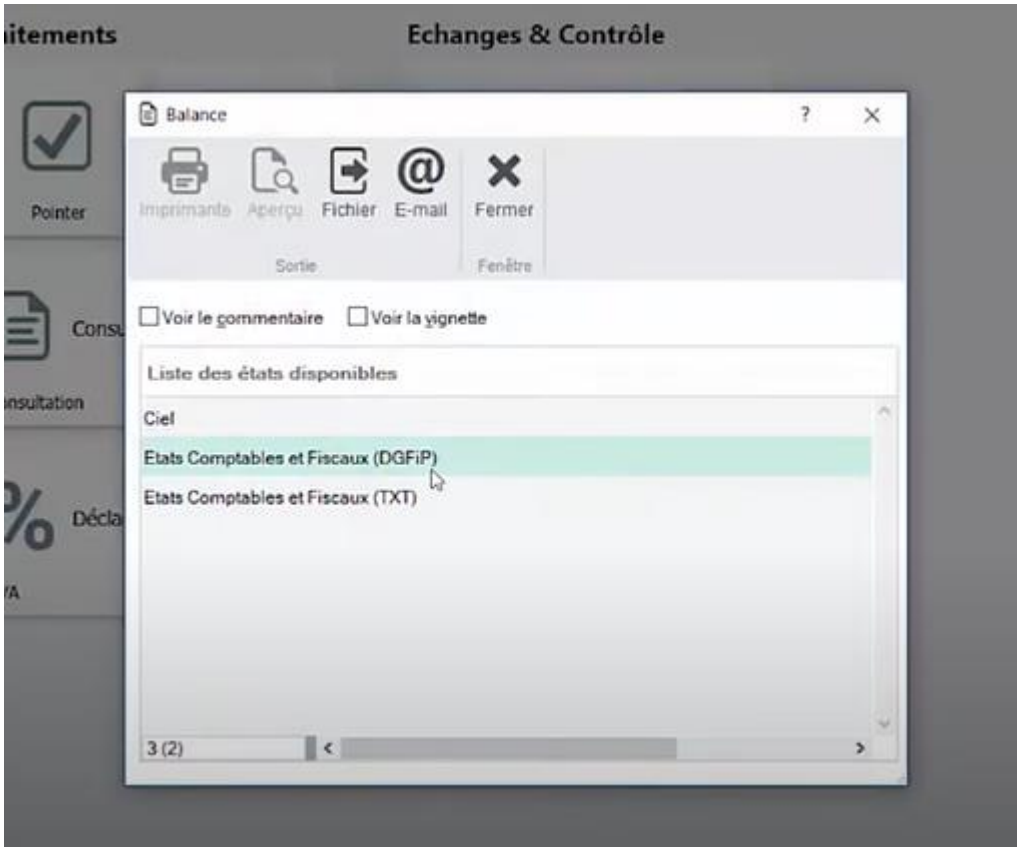
- After selecting the desired condition for the Societe entered in the sheet,
  Clicking on the Ventilation at the top will categorize the data into a separate sheet according to the selected condition.

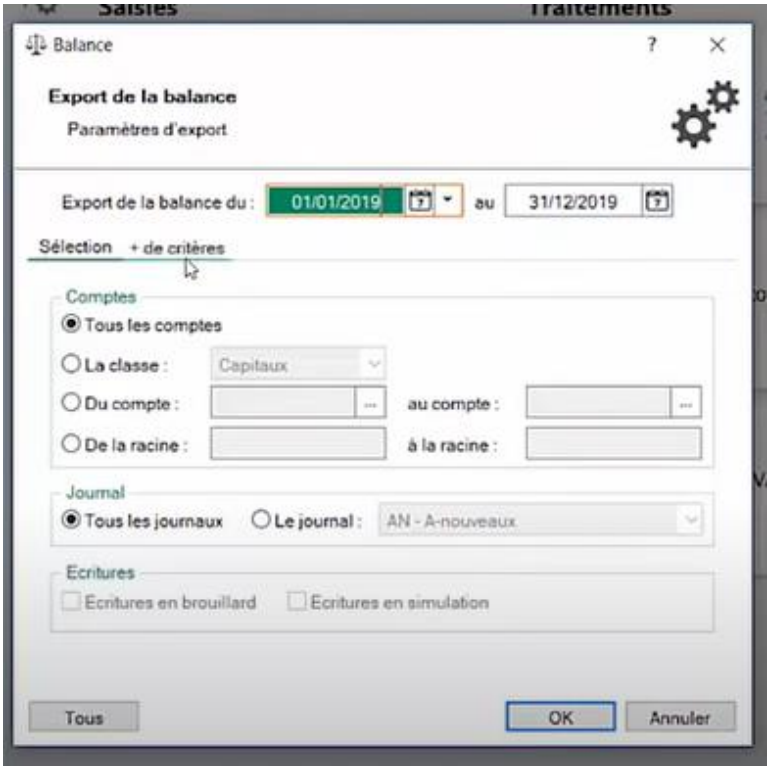
[SAGE ERP 50 Extraction Method]



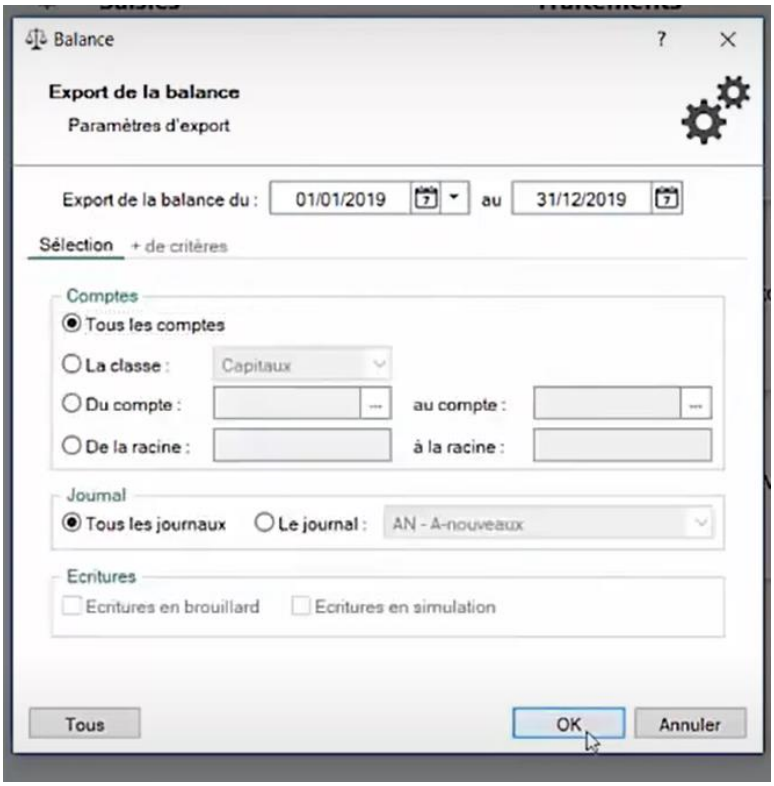
Click on Echanges from the main screen, then select Exporter une balance.



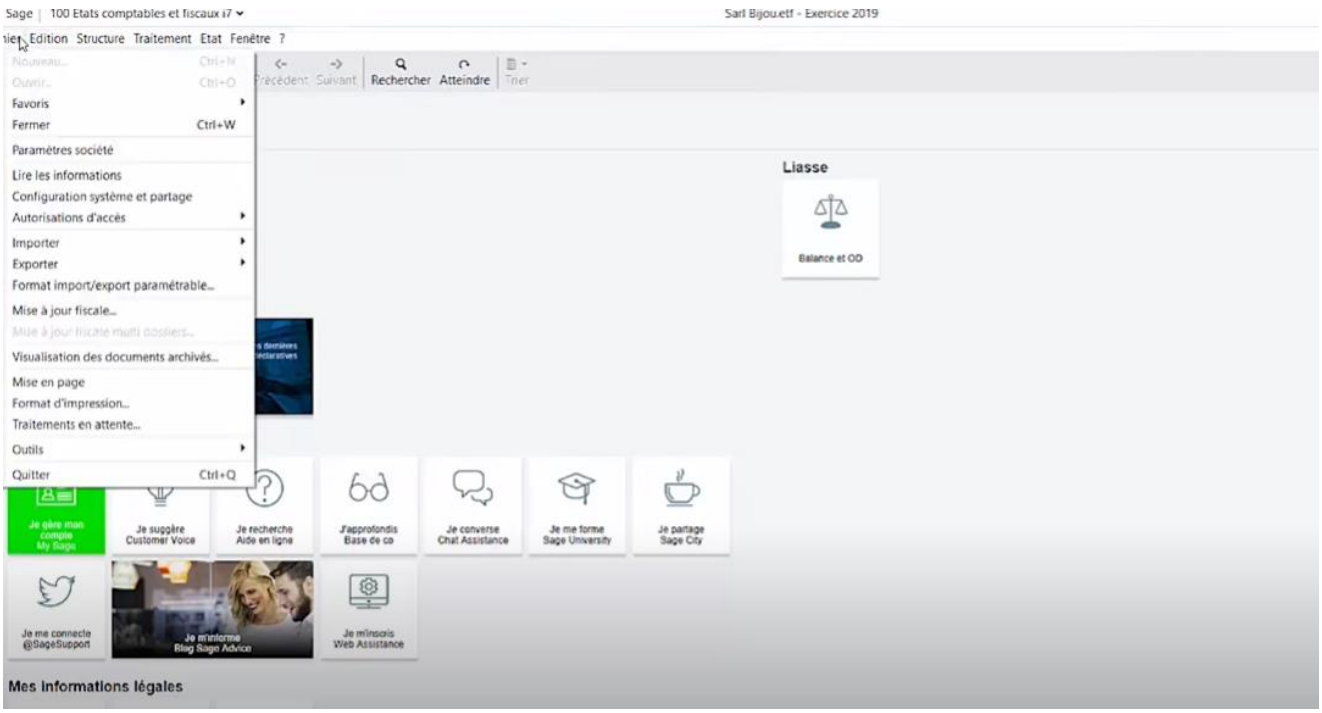
Select the accounting statement format, then click Fichier.



Clicking on Fichier allows you to set various export parameters.

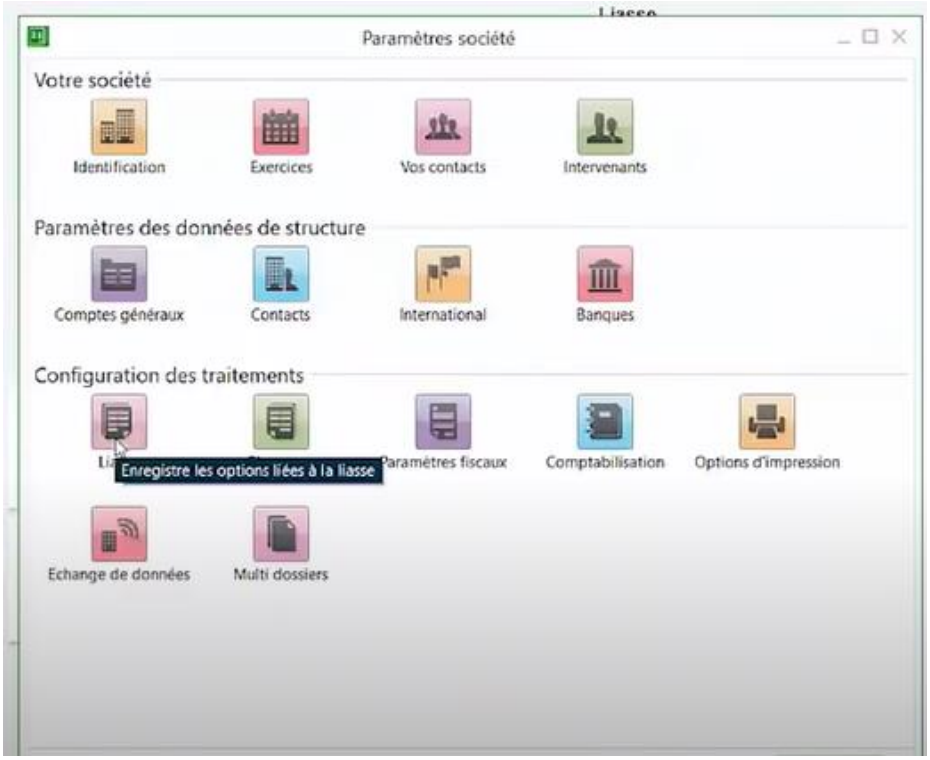


Select "Tous les comptes" and then click the OK button.



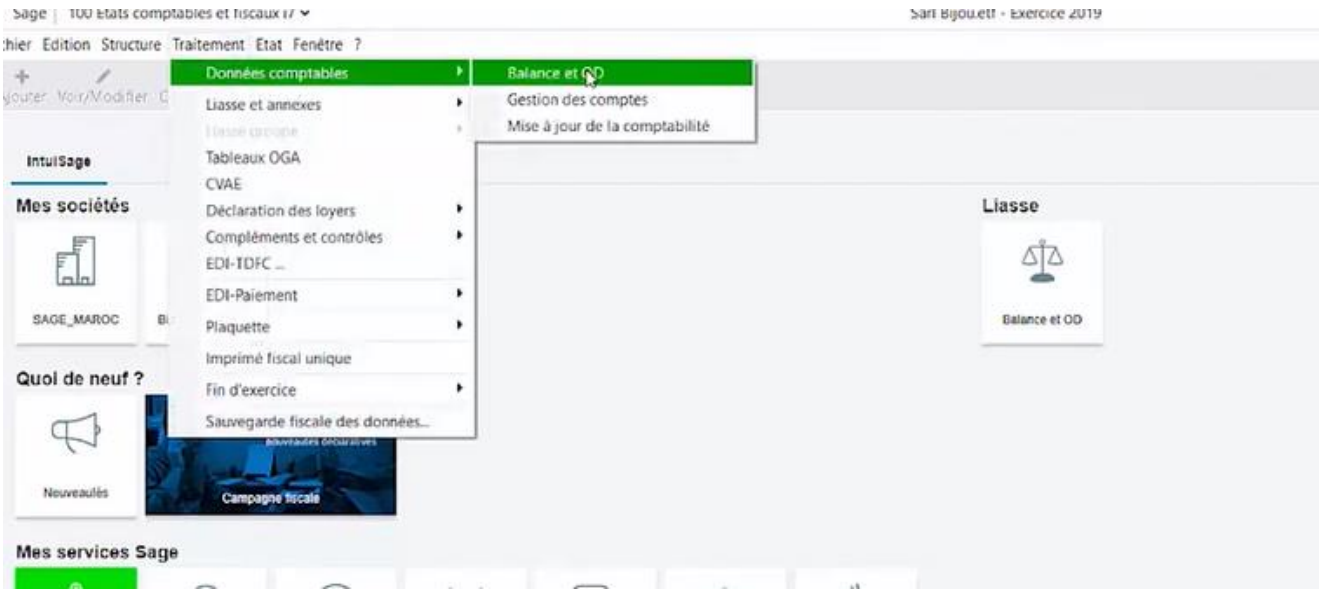
When you select the desired file in the previous step, the screen shown above will appear.

- After clicking Fichier, select Parametres société (Company settings).

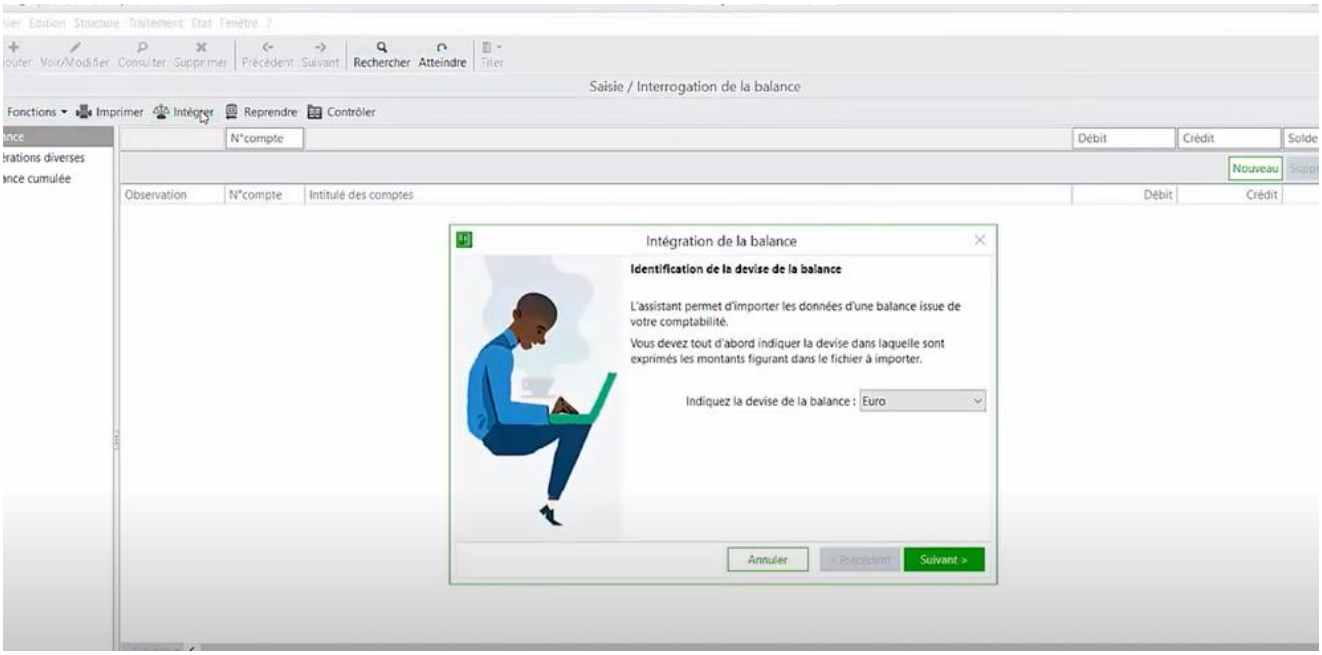


Click on Liasse.

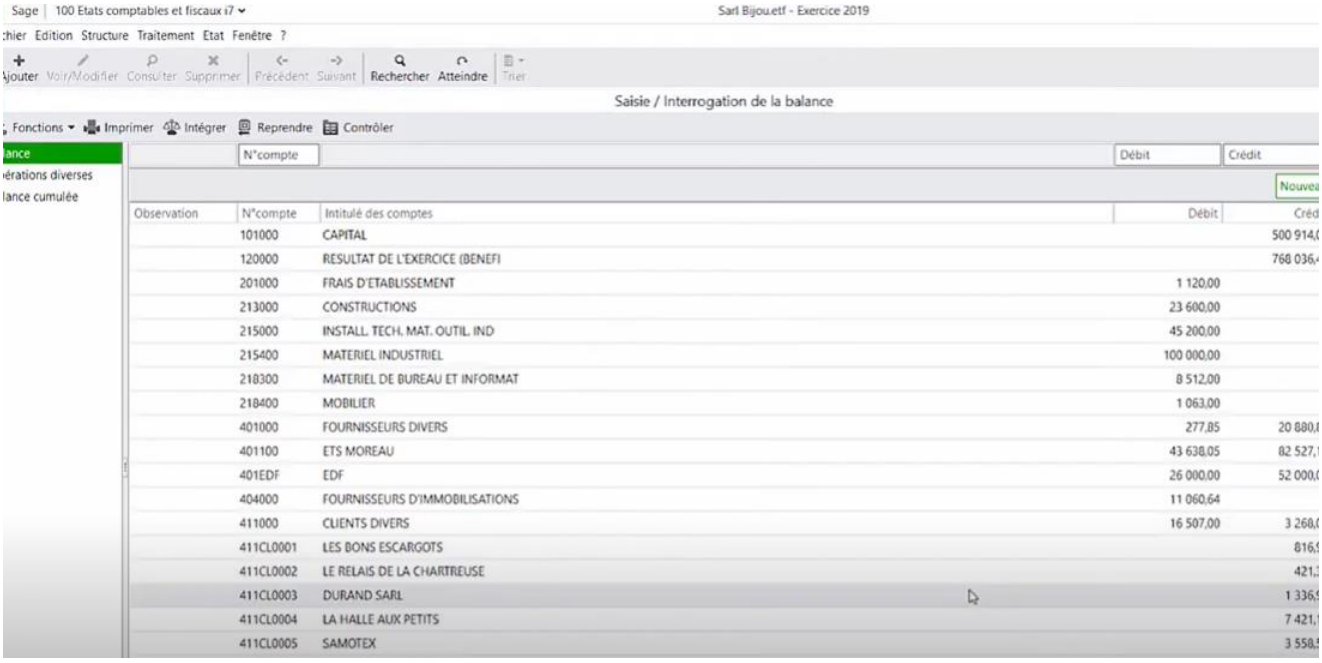
- Once clicked, you can configure the Methode and Format.



In Traitement, select Donnees comptables, then click on Balance et OD.



When the screen appears as shown above, click Suivant.



Clicking Suivant will complete the extraction.
