Worldwide Easy View Data Request Form – *Tally*

This document includes the following :

(1) The reasons why vouchers and related data are needed for the Easy View report tasks.

(2) List of requested data

(3) How to extract data (for reference).

The reason for requesting voucher data

Worldwide Easy View is a service that visualizes voucher data received from companies using digital tools, identifies exceptional transactions through various scenarios, and provides insights related to the monthly (annual) business performance and voucher management of domestic and overseas local corporations.

Voucher data and related materials are used as core data for Easy View reporting tasks.

Regardless of the system and scale, including the analysis of more than 10 million vouchers, the following information is provided as a graphics-focused dashboard

- Monthly operation status
- Monthly voucher status
- Period-over-period comparison analysis
- Examples of abnormal voucher
- Key management indicators (ratios, turnover rates, turnover days, etc.)
- Detailed analysis of assets/liabilities/income statement items

※ The following document assumes the voucher analysis period to be the following period:

> Cumulative for the current month [Jan 1, 2025, ~ the most recent closing month] / Previous year [Jan 1, 2024, ~ Dec 31, 2024]

If you have any questions regarding data extraction, please feel free to contact us.

A. Vouchers

For data processing, please extract all the data fields listed in the table below.

1) Requested field

No	Field Name	Essential (●)
1	Date	●
2	Voucher number	●
3	Account code	●
4	Account name	●
5	Debit/Credit amount	●
6	Name of Client or Vendor	●
7	Description or explanation of the transaction	●

* However, I understand that extracting account codes from the Tally system may not be feasible. In that case, a unique account name would be acceptable.
